Contents of volume 191

Articles

Protection of cells from menadione-induced apoptosis by inhibition of lipid peroxidation
T.-J. Chiou, S.-T. Chu, W.-F. Tzeng (Taiwan) 77–88

Indomethacin reverts sleep disorders produced by ozone exposure in rats
C. Rubio, C. Paz (Mexico) 89–96

Transport and subcellular distribution of intranasally administered zinc in the olfactory system of rats and pikes
E. Persson, J. Henriksson, J. Tallkvist, C. Rouleau, H. Tjälve (Sweden) 97–108

Increased formic acid excretion and the development of kidney toxicity in rats following chronic dosing with trichloroethanol, a major metabolite of trichloroethylene
T. Green, J. Dow, J. Foster (UK) 109–119

Identification of genes that are induced after cadmium exposure by suppression subtractive hybridization
H.-J. Shin, K.-K. Park, B.-H. Lee, C.-K. Moon, M.-O. Lee (South Korea) 121–131

Narcotic drugs change the expression of cytochrome P450 2E1 and 2C6 and other activities of carcinogen-metabolizing enzymes in the liver of male mice
S.A. Sheweita (Egypt) 133–142

Carvedilol and trimetazidine attenuates ferric nitrilotriacetate-induced oxidative renal injury in rats
D. Singh, V. Chander, K. Chopra (India) 143–151

The activities of tissue xanthine oxidase and adenosine deaminase and the levels of hydroxyproline and nitric oxide in rat hearts subjected to doxorubicin: protective effect of erdosteine
E. Fadillioglu, H.R. Yılmaz, H. Erdogan, S. Sogut (Turkey) 153–158

The renal effects of minimally nephrotoxic doses of ibandronate and zoledronate following single and intermittent intravenous administration in rats
T. Pfister, E. Atzpodien, F. Bauss (Switzerland, Germany) 159–167

Organochalcogens effects on δ-aminolevulinate dehydratase activity from human erythrocytic cells in vitro
C.W. Nogueira, V.C. Borges, G. Zeni, J.B.T. Rocha (Brazil) 169–178

Antioxidants protect primary rat hepatocyte cultures against acetaminophen-induced DNA strand breaks but not against acetaminophen-induced cytotoxicity
V. Lewerenz, S. Hanelt, C. Nastevska, C. El-Bahay, E. Röhrdanz, R. Kahl (Germany) 179–187

Benznidazole-induced ultrastructural and biochemical alterations in rat esophagus
C.R. de Castro, M. Montalto de Mecca, S.L. Fanelli, E.C. de Ferreyra, E.G. Díaz, J.A. Castro (Argentina) 189–198

JP-8 jet fuel exposure alters protein expression in the lung
M.G. Drake, F.A. Witzmann, J. Hyde, M.L. Witten (USA) 199–210

Role of the peroxisome proliferator-activated receptor α in responses to diisononyl phthalate
E.G. Valles, A.R. Laughter, C.S. Dunn, S. Cannelle, C.L. Swanson, R.C. Cattley, J.C. Corton (USA) . . . 211–225

Transport of trace elements in lenses of normal and hereditary cataract UPL rats
T. Nabekura, T. Minami, R. Hirunuma, S. Enomoto, M. Tomohiro, Y. Ito, S. Kitagawa (Japan) 227–232

Different effects of Type I and Type II pyrethroids on erythrocyte plasma membrane properties and enzymatic activity in rats
C. Nasuti, F. Cantalamessa, G. Falcioni, R. Gabbianelli (Italy) 233–244

Immunotoxicology

Effects of lead administration at low doses by different routes on rat spleens. Study of response of splenic lymphocytes and tissue lysozyme
C. Teijón, R. Olmo, M. Dolores Blanco, A. Romero, J. María Teijón (Spain) 245–258

Assessment of statistic analysis in non-radioisotopic local lymph node assay (non-RI-LLNA) with α-hexylcinnamic aldehyde as an example
M. Takeyoshi, M. Sawaki, K. Yamasaki, I. Kimber (Japan, UK) 259–263

Book Review

Mechanistic Toxicology—the molecular basis of how chemicals disrupt biological targets: Edited by Urs A. Boelsterli. Paperback: GBP 22.99, Hardcover: GBP 60.00 Taylor & Francis, Taylor and Francis Group, London and New York
K.J. Netter (Germany) 265–266

Author index of volume 191 267
Subject index of volume 191 269–271
Contents of volume 191 273–274

Contents continued from outside back cover
